Professional Summary

Experienced Software Engineer with 4+ years of expertise in Python, Django, and cloud technologies. Passionate about building scalable web applications and RESTful APIs. Strong background in SQL databases and DevOps practices.

Technical Skills

Programming Languages: Python, JavaScript, SQL, Bash
Web Frameworks: Django, Flask, FastAPI, React
Databases: PostgreSQL, MySQL, Redis, MongoDB
Cloud & DevOps: AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes, Terraform, Jenkins, GitHub Actions, CI/CD
Tools: Git, GitHub, Jira, VS Code, Linux, Postman
Methodologies: Agile, Scrum, TDD, Microservices, REST API Design

Work Experience

Software Engineer - CloudTech Solutions, Bengaluru

June 2021 - Present

- Developed and maintained RESTful APIs using Django and Flask serving 50K+ daily users
- Designed and implemented microservices architecture reducing system latency by 40%
- Managed PostgreSQL databases with complex queries and performance optimization
- Built CI/CD pipelines using Jenkins and GitHub Actions for automated deployments
- Deployed applications on AWS using Docker containers and Kubernetes orchestration
- Implemented unit testing with pytest achieving 85% code coverage
- Conducted code reviews and mentored 3 junior developers

Junior Developer - WebApps India, Hyderabad

July 2019 - May 2021

- Built web applications using Python and Django framework
- Created REST APIs consumed by React frontend applications
- Wrote SQL queries for MySQL and PostgreSQL databases
- Used Git for version control and participated in Agile sprints
- Containerized applications using Docker for consistent deployments

Education

B.Tech in Computer Science and Engineering
National Institute of Technology, Warangal - 2019
CGPA: 8.5/10

Certifications

- AWS Solutions Architect Associate
- Python Professional Certificate (Coursera)
- Docker Certified Associate
