Professional Summary

Data Scientist with 3+ years of experience in machine learning, deep learning, and natural language processing. Skilled in building and deploying ML models at scale. Strong statistical analysis background with expertise in Python and cloud platforms.

Technical Skills

Programming: Python, R, SQL, Java
ML/DL Frameworks: TensorFlow, PyTorch, Scikit-learn, Keras, XGBoost
NLP: Natural Language Processing, BERT, Transformers, Hugging Face, LLM
Data Tools: Pandas, NumPy, SciPy, Matplotlib, Seaborn, Plotly, Tableau
Databases: PostgreSQL, MongoDB, Redis, Elasticsearch
Big Data: Apache Spark, Hadoop, Kafka, Airflow
Cloud: AWS (SageMaker, S3, EC2), GCP (Vertex AI, BigQuery)
MLOps: MLflow, Docker, Kubernetes, CI/CD
Methods: Statistical Analysis, Hypothesis Testing, A/B Testing, Feature Engineering, Deep Learning, Neural Networks, Computer Vision

Work Experience

Data Scientist - AnalyticsPro, Mumbai

March 2022 - Present

- Built and deployed machine learning models for customer churn prediction (92% accuracy)
- Developed NLP pipelines for sentiment analysis processing 100K+ reviews daily
- Implemented recommendation systems using collaborative filtering and deep learning
- Created data visualizations and dashboards using Plotly and Tableau
- Deployed ML models on AWS SageMaker with automated retraining pipelines
- Conducted A/B testing for feature optimization and product decisions
- Collaborated with engineering to integrate ML models into production systems

Junior Data Analyst - DataWorks, Pune

August 2020 - February 2022

- Performed exploratory data analysis and statistical modeling
- Built classification and regression models using Scikit-learn
- Created ETL data pipelines using Python and Apache Spark
- Designed Tableau dashboards for business intelligence reporting
- Queried and analyzed data from PostgreSQL and MongoDB databases

Education

M.Tech in Artificial Intelligence
Indian Institute of Technology, Bombay - 2020
CGPA: 9.0/10

B.Tech in Computer Science
VJTI Mumbai - 2018
CGPA: 8.7/10

Publications & Projects

- Published paper on 'Transformer-based Text Classification' at EMNLP Workshop
- Open-source NLP toolkit for Indian languages (500+ GitHub stars)
- Kaggle Competitions Master with 2 gold medals
